presents

Play it Forward

12-Hour Charity Hockey Game

Border City Connects is thrilled to present our 3rd annual Play it Forward 12-hour charity Hockey Game, scheduled to be held on April 19, 2024, at the Servus Sports Centre. This extraordinary event is set to run from 9 AM to 9 PM, featuring 48 dedicated hockey players and 2 referees.

Your support is crucial to the success of this event and the continuation of Border City Connects' impactful services. We appreciate your consideration and look forward to the possibility of working together for a meaningful cause.

Event Overview:

Players participating in this charitable game have committed to fundraising a minimum of \$500 each to contribute to our cause. Border City Connects, with its ever-expanding services, continues to make a remarkable difference in people's lives, extending our impact to both the local community and beyond.

The primary purpose of this event is to raise funds for our essential services, and, once again, Border City Connects finds itself in need of a new caravan. The estimated cost for this replacement is \$70,000. These caravan units serve as our primary vehicles for out-of-town appointments, being on the road hundreds of times per year, in addition to handling numerous in-town appointments.

Event Highlights:

To enhance the experience, we'll be live streaming the entire event, providing people the opportunity to watch and donate live. Attendees are also welcome to join us at the Servus Sports Centre to watch the game live, with entry available for a donation at the door. For those on-site, a dedicated viewing area with beer gardens will be available throughout the day, located in the OTS room overlooking the ice surface.

PLAYER BIOS

Cory Dubyk - Born and raised here in Lloydminster. He grew up loving sports, playing hockey in the winters, and golf and fastball in the summers. Cory played both for the Lloydminster Bobcats and Lloydminster Bandits in Jr, and then played for the Lloydminster Border Kings in senior. He is still very involved with hockey but on the coaching side. He coached U13 AA hockey for four years and now is very busy coaching his daughter who just completed her last year of U11. When asked if he would like to play and raise money for BCC he could not resist. This cause is very near to him as his father-in-law had to use the services many times while going through treatments and doctor's appointments in the major cities.

Maverick Hann - My name is Maverick Hann and I work as a full-time firefighter in the City of Lloydminster as well part time with the Lloydminster Region Health Foundation. Giving back to the Border City Connects is a great way to ensure residents with mobility issues get the ride they need. My favourite hockey player growing up was always Kevin Biekša, I don't have the typical answers like Gretzky or McDavid. I truly believe in getting physical in the corners and sticking up for your teammates is a huge part of hockey and Kevin Biekša always had that.

Greg Scheirbeck - I was born in a small town in northern Alberta. I loved playing hockey as a kid and was always number 4 for Bobby Orr. Hockey always brought people together and I have made so many friends over the years through hockey. Just want to give back and have some fun doing it. Look forward to this and making some more friends doing it.

Aaron Buckingham - I was born in Saskatoon and grew up on a farm near Rabbit Lake Saskatchewan. I was never really any good at sports as I seemed to grow quickly and was terribly uncoordinated. I loved playing hockey from the age of 4 and played up to what is now called U18 although I never thought I was much of a goal scorer or defencemen or goalie for that matter, I always tried my best. It was later in life that my love of the game was fired up again and for the last 15 plus years I have played 4-6 times per week and coached both my son and daughter in minor hockey meeting some great players and families that are now lifelong friends along the way. BCC is an essential service in our community so founding this fundraising initiative while doing the sport I love to play made total sense. I look forward continuing to be involved in the play it forward charity hockey game. My favourite player growing up in the dynasty years for the Oilers was #9 Glenn Andersen and I wore that number for my entire minor hockey career.

PLAYER BIOS

Clint Vetter - I was born and raised on a farm near Reward, Saskatchewan. I moved to Lloydminster in 2004 and have been here ever since. I played hockey as a kid till Atom and then our small community had to stop our minor hockey program. I played ball throughout my school years and into Senior. I always played rec hockey to connect with people and stay in shape. The BCC does a lot for our community, and I am glad I can participate and give back in some small way. Go team 3!!

Joe Hufnagel - I grew up my whole childhood in Quill Lake, SK. Played till senior with the WildCats at 17. Went to work. Farming and Oil Patch. Got back playing hockey after more then 20 years. Autism Dad. Hockey and Ball coach. Three kids and wife.

Keegan Lane - I have lived in and around Lloydminster growing up, leaving in 2006. Returned to Lloyd in 2018 and been actively involved in the hockey community as an Official for all levels of hockey in the area including the AJHL for the past four years. When hearing in 2022 of the chance to play the game I love and simultaneously fundraise for a great foundation that helps so many in our community, I couldn't pass it up, and now am looking forward to this year's event to build on the success of last year. It'll be a great day to Play Hockey.

James Rogers - I was born and raised in Lloydminster I grew up like so many young Canadians dreaming of making it to the NHL... or at least to a point where I could possibly score a goal and skate without falling. Both dreams have yet to be realized but the love of playing hockey still stands. I chose to support this great cause because it allows me to play a sport I love while raising money to help maintain a critical service for those less fortunate than I. I am blessed to be playing with my two brothers this year as we all look to support a fantastic cause in our community.

Edwin Rogers - I am originally from Lloydminster, played minor hockey through to midget before leaving for university. Now in Regina with my wife, Kim, and our two kids. I am thrilled to join my brothers, James and Adrian, in the game. It's a special way for me to contribute to my hometown and I am so proud to be a part of it.

PLAYER BIOS

Adrian Rogers - I was born and raised in Lloydminster Alberta. I am honoured and looking forward to playing in the second annual 'Play it Forward Charity Hockey Game'. I grew up playing my minor hockey years in Lloydminster and developed a love for hockey from a young age playing alongside my older brothers and friends. I still play rec hockey 2+ times a week and enjoy getting out for the comradery and exercise. My favourite hockey player when growing up was Patrick Roy. Thank You for supporting Border City Connects and Thank You to BCC for the services they provide to the community!

Adam Wright - I was born in Lethbridge, AB and was raised in Foremost, AB. From a young age I enjoyed watching the Winnipeg Jets and my favourite player growing up was Teemu Selanne. I played my first 6 years of minor hockey in Foremost, before moving on to play in Medicine Hat and Lethbridge. From there I played 3 years of junior hockey, 1 year in Brooks and 2 in Bonnyville. I played rec hockey during my university years in Lethbridge before joining the Rats in Lloydminster when I moved to town in 2011. My eldest daughter just finished her second year of hockey in Kitscoty, and she is loving every minute of it. My middle child is planning on following in her sister's footsteps in the future. I am looking forward to helping give back to this community I am raising my family in, and now call home.

Shane Peters - I was born in Saskatoon and got older (still has not grown up) in Dalmeny Saskatchewan. I was always very involved in community sports, and as all my coaches always told me, I was a last resort, so I naturally grew into the spot of goaltender in soccer and hockey. Going through my minor hockey career as middle of the pack kind of guy in stats, I made sure to be an asset on the team just because I am an awesome guy to be around. With over 28 years between the pipes and not missing a full season (covid years not included) I find I have blossomed into one of the worlds "okayiest" goalies. I am Always up for a game because I have never let the passion die. Now being older (still not grown up) I have coached and mentored for about 5 of most recent years being both of my daughters have carried the torch of the love of the game, thankfully enough they both have natural talent and more braincells than me and are defense. Growing up I would be glued to the tv every Saturday night watching my Toronto Maple Leafs and my favourite goalie #29 Felix Potvin (The Cat) flash the leather and get crowds roaring. This is my second year being asked to join the BCC cause and I am very excited to support such a great organization in the years going forward. To be able to raise money for charity while doing something I love is an absolute no brainer.

PLAYER BIOS

Ben Parke - I was born in Lloydminster and moved north of Marwayne when I was 5, I played every sport available in a small town. Now living in Medicine Hat it's a bit further drive to the rink here in Lloyd but after this event the last 2 years, I wouldn't miss it. Although two spunky kids keep me running, I am always looking for ways to give back, Living in Medicine Hat since July of 2022 but I have always had a connection to the area. After moving to Medicine Hat, I can really see the local support for events like this. Kudos to Bucky and everyone involved, it's quite remarkable to see this all come together for a 3rd year straight!

Taylor Holt - I grew up in Balgonie Saskatchewan a small town about half an hour outside of Regina. I began playing hockey at a very young age and played competitively all the way up to Jr in Balgonie or Regina and then came up to Lloydminster playing Jr here in 2007. I then decided to stay here and continued playing Jr in Vermilion and then moving on to Sr in Neilburg and Marwayne. Once I finished playing Jr, I got into coaching and had the privilege of coaching some of Lloydminster's most elite players since 2013, coaching U15 AAA, U18 AAA and the Jr. A Bobcats. I was lucky to have been involved in the provincial winning U15 AAA team in 13/14 and the Pacific Championship U18 AAA team in 15/16 that got to travel to New Brunswick for the Telus Cup. Along the way I've made some great friends coaching and playing and I am happy to be a part of this great fundraising game for the 2nd straight year. This past winter I started a new career path after spending 15 years at Factory Sports, where many of you might recognize me from, to now working for Hub International (used to be Stalco Insurance). I am on the commercial side as a Commercial Account Executive and have been truly enjoying the switch and look forward to meeting and helping some new people in the community with my new role.

Kyle Nerbas - I am one of the few people that can say he was born and raised in Lloydminster. In fact, I am 2nd generation born and raised here as my mother was also born in Lloydminster. I started playing hockey at the age of 4 and haven't stopped yet. It wasn't until 28 years old that I decided to take up goaltending, I guess I felt I wasn't getting enough pucks shot at my head as a forward. I enjoy supporting our local charities and Border City Connects is a great cause for our community to get behind.

PLAYER BIOS

Joshua Sitko - Born in Kitchener Ontario - the third in a family of four boys. Although his dad Mike was an all-Canadian football player, he didn't want his sons to follow in his footsteps as he thought the game was too harsh on one's body.... so, hockey it was. Josh and his brothers were sent to Athol Murray College of Notre Dame in Wilcox Saskatchewan for high school and to be a part of the ND hockey program. After many years away from hockey, Josh started playing in the noon group and rediscovered his joy of the game. Josh moved to his wife Candice's hometown Lloydminster in 2015. Here they have started a family and Josh has come to really love this city. He strongly believes that if you want to enjoy all the great things that Lloydminster offers its community, it is therefore important to give back where and when one can.

Mike Bernard - Born in Lethbridge Alberta, he moved around Alberta living in Red Deer, Calgary and Edmonton before moving to Lloydminster 15 years ago. He played ice hockey in Edmonton at a young age and at the age of 12 decided to try different sports only to return to ice hockey at the age of 18. After playing in a few Beer leagues around Edmonton he found a love for Ball hockey and played for 20 years. After moving to Lloydminster, he started to play in the Participaction and Twilight league and has continued to do so for the past 14 years. Mike enjoys spending time volunteering for many events and organizations within the community including volunteering with the Lloydminster Bobcats for the past 7 years. Mike loves to participate in fundraising events when given the opportunity. Border City Connects is an invaluable service in our community and Mike is excited to participate in Play it Forward and raise funds for this great service.

Murray Drever - I was born in Lloydminster and grew up on an acreage just outside the city. Hidden within a ring of trees we had a small dugout where I spent many hours skating and enjoying the cool air on my face keeping warm with a huge thermos of hot chocolate. I was always drawn towards goaltending and strapped the pads on as soon as I could. There truly is nothing like a great save. You know, even the ones the other team appreciates. My favourite players growing up were Dominik Hasek and Martain Brodeur. They always seemed to be making spectacular and exciting saves and never gave up on a puck. When I was asked to be a part of this game I accepted immediately, it's always a good day when you get to play hockey and raising money for a great cause while doing it makes it even better! I look forward to my two young boys watching Dad make a few great saves!

PLAYER BIOS

Lanny Sydia - I was born in Lloydminster and am proud to call this small community my home. Hockey has been a part of my life since I have been a small kid. I played organized hockey my entire childhood into my late teens and can honestly say that some of my greatest memories I have were playing the game I love, hanging out with the team and forming friendships that have lasted a lifetime. Being a kid was great, but we all need to grow up sometime. Lloydminster held a place in my heart, so I decided to stay here and set down further roots. I got married, had kids and enjoy watching them grow up in the supportive community of Lloydminster. I own and run a trucking company based out of Lloydminster called Sydia Bros. We haul heavy equipment or really anything, anywhere it needs to go. Running a company has been busy and sometimes a challenge while raising a young family, but it is a challenge worth taking. Even though life is busier now than ever, I always make sure I take that hour or so to play the game I love. I still play on a couple hockey teams, whether it be noon hour hockey or late-night hockey, I enjoy being there and wouldn't miss a chance to be active and hang with the guys. Knowing that hockey has had this impact on my life, it has been surreal for me to watch my son growing up, playing competitive hockey and having the same connection with the game as I did.

Travis Tomanek - I grew up in La Ronge, Saskatchewan. Owner of Keen Developments. My passion for hockey can be traced back to my childhood - playing mini sticks and street hockey with my buddies and watching Flyers games with my brothers. Hockey remains a big part of my life although I'm a player now, I grew up a goalie which is why you may notice my unorthodox skating skills. What better way to spend my day than playing hockey and supporting those who need assistance in our community - it's a win-win!

Cam Grabowski - Born in Hafford, Saskatchewan, on Dec. 8th, 1968. I am 53 years old. I played my minor hockey in Hafford up to the age of 15 then moved to North Battleford to play midget AAA. Followed that up with some junior and senior hockey. I moved to Lloydminster in 2003 and coached minor hockey for many years and continue to play. Favourite hockey player: Guy Lafleur; Favourite team: Calgary Flames. Lloydminster is a great community, and I will always continue to support any event that helps any organization and nonprofit that is in need.

PLAYER BIOS

Lee Haughian - I was born in Edam, Saskatchewan and raised in Lloydminster. I am married to my high school sweetheart, and we have 2 sons. Growing up I spent my summers at my grandparents' farm by Edam and in Lloydminster at the outdoor pool. I played soccer, football and did track in the summer/fall. I spent my winters playing minor hockey in Lloyd right up until my second year of Midget. After minor hockey I went to work in the oilfield locally and abroad. I met some guys through work who got me back into hockey and I played a few years in the Senior Sask-Alta league for the PV Jets and Lashburn Flyers. I also enjoyed coaching both of my sons in minor hockey in Lloyd where I met a great group of kids and parents who many I call friends to this day. I am now at the age where rec hockey is more my speed of play. I enjoy spending time with my family at the lake, fishing, golfing and playing slo-pitch. When I heard about the opportunity to play in the Play It Forward fundraiser for BCC I couldn't resist as I enjoy playing hockey and like to give back to my community. I know people who utilize this service along with those who volunteer and support it also. In 2018, the 100+ Women Who Care organization, which my wife and her cousin co-founded, raised enough monetary donations to help BBC buy a new van. You can see it driving around locally with their logo on it. Now it has come full circle where a great group of men playing hockey can do the same!

Wil Grainger - I was born and raised in Lloydminster. I spent my minor hockey career as a Lloydminster Blazer and started playing goalie in Novice, when my now beer league teammate decided to call it quits on being a goalie just a few games into the season and the vacant job needed to be filled. The call to tend the pipes must have been hereditary as my dad played goalie himself for over 30 years. My NHL idol growing up was Martin Brodeur and I remain a diehard Devils fan to this day. After playing mostly pickup hockey while attending college in Edmonton, I moved back to Lloydminster to work and quickly found a beer league team to settle into. Some of my best times playing hockey have been as an adult in Rec league. Winning is fun, but having a great group of guys to call a team is irreplaceable. I am stoked to be playing in the Play It Forward charity game as it is a great way to help give back to the community that I've called home for 30 years now. I'm sure there will be plenty of laughs throughout the day, some video of me goaltending that I'd wish didn't exist, and a ton of money raised for a great cause.

PLAYER BIOS

Jordan Newton - I was born in London, Ontario but have called Lloydminster home for the last 14 years. I have worked for the City of Lloydminster since moving here and currently serve in a role that oversees the Parks and Greenspaces around the community. Along with my wife and two boys, I enjoy being active in the community and being a part of events like this that contribute to the ongoing success of non-profit services in the community. I grew up playing hockey and believe that hockey truly is one of the greatest sports around not only for the speed and physicality but also the team aspect of the game. Don't let my historical on-ice experience fool you, I still have the unique talent of being both an offensive liability and a defensive liability when on the ice.

Sheldon Heck - Wife - Lisa Heck; 1 girl 16, 1 boy 14; GM/Director of Tryton Tool Services Canada. Have Been with Tryton for 25 years; Apart of LMHA for the last 10 years. (Coaching / Director / Executive Director through the 10 years); Coach girls' softball for many years; Favourite childhood player Steve Yzerman; Favourite current player Nathan Mckinnon; Favourite sports - Hockey, Fastball, Golf, Water sports; no better way to sign up for a sport I enjoy and at the same time supporting our community! It all helps.

Sean Hill - I was born and raised in Lloydminster with my wife Brandy and our two boys Owen and Cheese. I played a lot of sports growing up here in the Border City all my minor hockey and 5 years in Marwayne for the Comets of course the countless rounds at the Lloydminster Golf and Country Club. I also like to get back to my community in a very small way by coaching hockey for the last 14 years from Intro to hockey to U18AA. Also, every spring for the last 10 years I been helping with the Lloydminster Border Brutes lacrosse association by coaching and have been the President for the last 5 years. Border City Connects has helped our family considerably over the years as my stepfather had a major stroke over 10 years ago. As it is very hard for him to get around, Border City Connects has helped our family out tremendously. My family and I are very proud to give back to our community and the Border City Connects in this small way.

Cody Mazerolle - Owner of Maz Entertainment; Born and raised in Lloydminster; Long time third line grinder; Probably will fall a lot; Happy to support the cause!

PLAYER BIOS

Greg Desaulniers - I was born and raised in St. Paul, AB. I've been playing hockey for over 40 years and played some good hockey in my younger days. I have been married for over 25 years, have 3 daughters and 2 granddaughters. I've worked in the Oil Patch my whole career with the last 19 years working at Husky/Cenovus Energy. I am a huge Oilers fan, growing up in the 80s I got to see the Oilers dynasty play and win those cups and am hoping that will start again this year.

Bill Caverly - I grew up playing minor hockey and was a very average left winger. In my late 20s I jumped in goal to fill in for a last-minute cancellation in rec hockey, and the rest is history! I love playing goal any chance I can get, from playing for the Leafs' alumni team, to practicing with the pros with IHD. If there is an ice time you'll probably find me between the pipes. I love being involved in the community and am honoured to be able to play in this charity game, raising funds for a great cause! My favourite player growing up was Felix Potvin.

Jase Dopko - I'm 19 born and raised in Lloydminster, I'm currently enrolled at Lakeland College taking business. I've played hockey since the age of 5, playing Lloydminster Blazers up until last year finishing my minor hockey career with the U18 AAs. I currently play in the Sask Alta hockey league for the Kitscoty monarchs. I also coach at the LPSD hockey academy everyday, to continue being on the ice. Hockey is much more than a game for lots of us, no matter what level we play we do it for the love of the game. I've played from all levels C to AA, and in every level, I've met amazing guys and coaches, who have all helped me develop not only as a player, but as a person too. Hockey teaches us that life isn't fair, like getting cut from a team, losing a championship, or even just having a bad game. Hockey teaches us to not give up, to keep going no matter what. Hockey is my passion, and it always will be, and for many others they can say the same. My favourite player is #10 Derek Ryan for the Edmonton oilers. He may not put-up big numbers, but he shows up every game and puts it all out on the ice. He's one player that I think we can all learn from, and perfectly exemplifies what it means to be a passionate athlete. He's also the reason I wear the number I do, #10.

Marty Wheaton - I grew up and played all my minor hockey in Lloydminster. Like most Canadian kids, hockey was my first passion. Shortly after the release of Happy Gilmore I decided to try golf. The game of golf quickly turned into an obsession to improve. I've made a career in the golf business for 22 years and call the City of Lloydminster and the Lloydminster GCC home.

PLAYER BIOS

Kevin Lane - Born in Kindersley, SK, raised in Lloydminster after moving from Kindersley in 1973. Completed all public school in Lloydminster. Played all minor hockey in Lloydminster - Tom Thumb to Midget A; Junior A - Lloydminster Lancers, 1985 - 86; Junior A - Fort Saskatchewan Traders, 1986 - 1989; Senior AAA - Lloydminster Border Kings, 1995 - 98. Favourite player growing up - Bobby Orr / Paul Coffey; Current Team - Lloydminster Neversweats. Attended U of A to receive a Bachelor of Education, taught in Fort Nelson, BC, Lloydminster, and Strathmore, AB. Married to Lana Lane for 31 years, with whom we have 3 children - Keegan (also playing), Shae and Shelby. Currently co-own and operate Rusway Construction and have since 2014. Love the game and very pleased to be taking part in the event to support the local community.

Blake Hunter - I enjoy helping to support a great local cause. This event is also a great reason to get out and be with friends and community. I'm from small town Saskatchewan and one of the only fun things to do in the winter was hockey. I love hockey for the team atmosphere and good competition. Favourite player growing up would have been Chris Chelios for his big heart and longevity.

Chris King - Hockey Experience: Kitscoty Minor Hockey, New Castle North Stars- Australian National Hockey League; Favourite Player Growing Up: Ray Bourque; I am very excited to play in this game to help raise money for Border City Connects. The funds generated from this fundraiser will provide an asset to our community. Creating accessibility in and around our area is essential for our community members.

Zander Buckingham - I was born and raised in Lloydminster and this will be my first time playing in the game as I have recently turned 18. When my dad founded this game and I saw how excited he was to be doing it, I immediately wanted to be a part of it and I am so excited to play alongside my father and my former teammate from bantam Jase Dopko. I played all my minor hockey in Lloydminster and made some great friends and had some great times. I will graduate high school this June and will be moving on to university this fall. My dad started this game, my great Uncle has driven for border city connects and now its my turn to give back.

BORDER CITY Connects

In 2018 in order to recognize neutrality within the corporate name the Board of Directors officially changed the corporate charitable name from the "Lloydminster Handivan Society" to the "Border City Connects Society". As the overarching "non-profit charitable society" it is the official recipient of all the donations, gifts and bequeaths and the corporation is CRA approved to issue charitable tax receipts for the other divisions under the Border City Connects Society's corporate name.

BORDER CITY EXPRESS

Under the umbrella society we have also changed the Lloyd Handivan to the new name of the "Border City Express". We continue to provide transportation for the last 40 years to community members with mobility and intellectually challenges

BORDER CITY CAREAVAN

This service is operated 100% by volunteers and provides transportation for both able bodied and challenged community members to "out of town" non-emergency medical appointments utilizing minivans as the means of transportation. It is a door-to-door service and we supply the vehicle, fuel, volunteer driver and the volunteer coordinator who looks after all the logistics.

BORDER CITY SHUTTLE

Provides shuttle services for any kind of event or tour and offers a "Safe Ride Home" service for all staff and corporate functions.

BORDER CITY TRISHAW

This a 3 wheeled cycle used as a recreational activity that is designed to accommodate seniors and community members with challenges to get out and have a volunteer take them on a bike ride and let the air blow through their hair. Much research has been done on how it assists individuals that may be feeling loneliness and isolation

BORDER CITY PARAMOBILE

The all-terrain Para-Mobile with its patented "stand-up device" has many innovative uses for sports such as golf, fishing, riflery and also social events. Thanks to this piece of equipment, our community wheelchair users are discovering a new and unimagined level of freedom and independence. Being able to stand up boosts self-esteem - one can finally stand up facing others at eye level - and has a therapeutic effect.

EMPOWERING LLOYDMINSTER WITH THE *FREEDOM OF MOBILITY*
